

Value Driver Battlecard

ENTERPRISE DISCOVERY BATTLECARD • INTERNAL USE • KEEP THE CONVERSATION AT THE BUSINESS LEVEL

Source: **The Peek Pro Way** — Sales Playbook, Ch. 1 & 4
For Account Executives & BDRs

	PAIN	OUTCOMES	REQUIRED CAPABILITIES	WHY PEEK PRO WINS
 Grow Revenue	Empty inventory, weekday gaps, and pricing that never flexes with demand — revenue quietly left on the table.	• More direct bookings, higher conversion • Higher AOV via on-site upsells • Higher revenue per departure / guest	• Online Booking Engine • Dynamic Pricing • Mobile POS • Gift Cards & Memberships	WHY WE WIN Turns booking and pricing data straight into revenue — visible immediately in Conversion Rate and Revenue/Departure, not a vague promise.
 Operational Efficiency	Manual scheduling, paper waivers, and phone-heavy bookings — staff re-entering the same data across disconnected systems.	• Fewer double bookings • Faster check-in, lower labor cost • Less manual data entry	• Reservation Management • Digital Waivers • API Integrations • Automated Guest Messaging	WHY WE WIN Replaces disconnected, manual workflows with one integrated system — Check-in Time and Cancellation Rate move without adding headcount.
 Guest Experience	Slow check-in, poor pre-arrival communication, and checkout abandonment — guests arrive confused or don't book at all.	• Faster check-in, fewer no-shows • Higher guest satisfaction • Stronger guest lifetime value	• Digital Waivers • Automated Guest Messaging • Mobile POS • Online Booking Engine	WHY WE WIN Redesigns every guest touchpoint — booking, waiver, check-in, communication — protecting the lifetime value each guest represents.
 Scale the Business	A new location, seasonal demand, or growing headcount — all planned on guesswork instead of reliable data.	• Better forecasting, fewer surprises • Consistent operations across sites • Growth without added overhead	• Reporting & Analytics • API Integrations • Reservation Management	WHY WE WIN Turns "educated guesses" into forecasting reps can point to — expansion without the operational chaos that usually comes with it.

• COACH'S CORNER — DISCOVERY REMINDERS

- ✓ Start with business outcomes, not features.
- ✓ Diagnose before you prescribe.
- ✓ Quantify the cost of the problem.

EVERY FEATURE CLIMBS THE VALUE CHAIN

GOLDEN QUESTION

"What happens if nothing changes?"
